

The safe & secure parking solution for motorcyclists

www.motoparking.co.uk

MOTOPARKING UK

Welcome

Welcome to Motoparking UK, the UK's first innovative motorbike parking solution, promoting safety & security. We believe in creating a world where parking for bikers is made easier & safer.

WHAT WE STAND FOR

Our Vision

Our vision is centred around working with cities, communities & large scale retailers to help introduce a concept of motorbike parking that we feel would make the travel and storage of both vehicle and belongings smart and safe.

Smart for the concept operator, smart for the adoption city, smart for the environment while sharing smart business values

OUR PROCESS

How Do We Work?

We have a process in place to take your project from start to finish using our highly experienced team.

01

Consultation & Surveying with drawing plans to finalise number of units for the space provided.

02

Delivery of Units from our manufacturers to the installation points .

03

Installation & servicing of the units delivered by our experienced in house team .

MOTOPARKING UK

Production

MotoParking is a premium Italian-made product, from its initial concept and design to its final production. It's crafted for its sleek design and its reliability but it's also built to stand the test of time with minimal servicing required. To ensure the highest quality, we use cutting-edge automotive production technologies, made possible through our partnership with ADB Srl, part of the highly respected LONATI SpA Group in Mazzano.

ADB's expertise in 3D laser cutting, welding, and advanced assembly ensures MotoParking products are not only aesthetically pleasing but exceptionally robust for added safety. With a commitment to durability, our products are designed to be dependable and require little maintenance, allowing for a lasting solution to parking needs. Through substantial investments in research and a passion for innovation, we've dedicated exclusive production lines to MotoParking, guaranteeing unmatched quality and the ability to meet specific market demands with a product that's both safe and enduring with a ten year warranty.

OUR REVIEWS

What Our Clients Say.

Westfield London has always been at the forefront of innovation and customer experience, this means not just looking at the Centre from a retail perspective but the entire journey. The car park is the first and last touch point at any destination and we at Westfield pride ourselves on the facilities that we have provided. However, in early 2017 it was noticed that we cater very well for the everyday driver, but what about motorcyclists? Yes there are designated areas and the parking is free, but what about somewhere to leave clothing and helmets while securing the motorcycle itself.

During a visit to Parkex that year we found Moto Parking and was impressed right from the start that all of the above could be covered with their innovative locker solution. Having looked around for a while and finding nothing that could compete, we purchased a large number of these units which were installed in late 2017 and were an instant hit with every unit in use within days. Leading to further lockers being added. Toni Impieri and his team were engaging throughout the process and their contractor installed to a very high standard with no issues. I cannot recommend Moto Parking and Toni's team enough and will always use them where possible.

Westfields - Shepherds Bush

MOTOPARKING UK

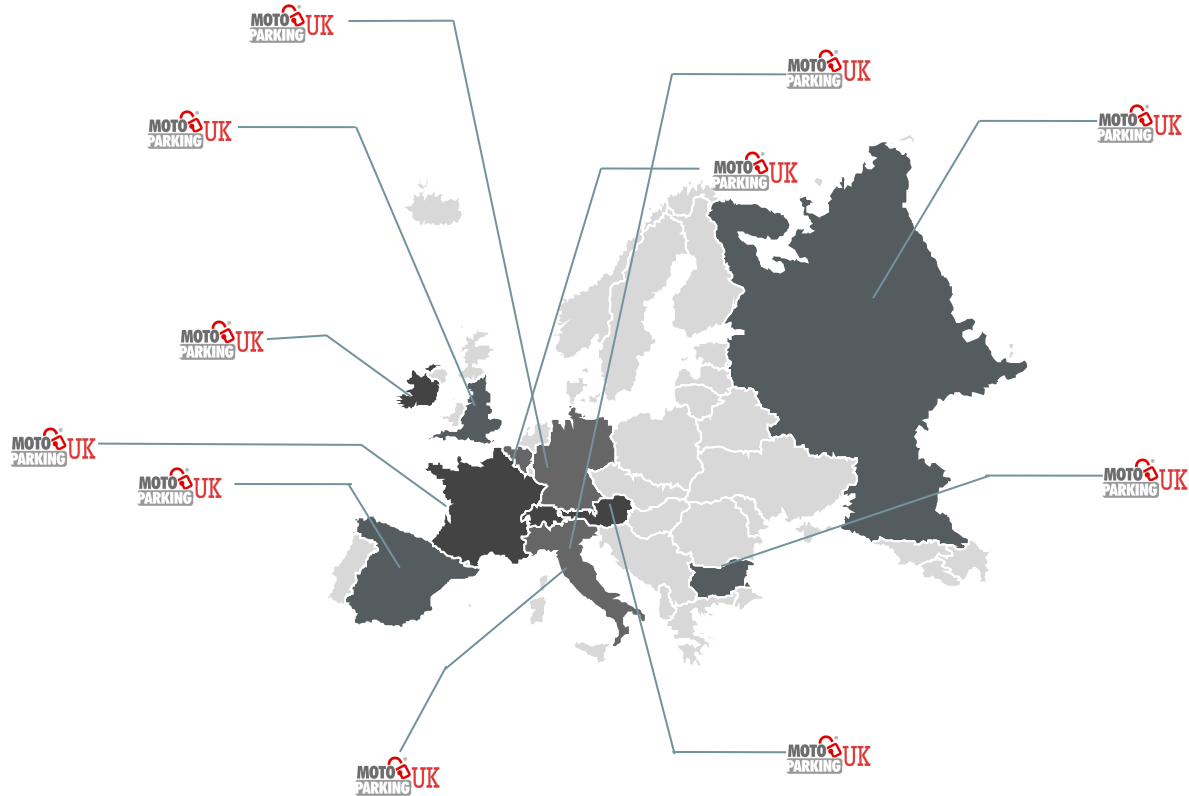

About Our Company

MOTOPARKING UK is one of many Motoparking companies across the globe. We began our journey in early 2013 and we have been working tirelessly to help introduce our concept across the U.K

With a steady increase in road health and safety awareness, we feel that our product is in prime position to help motorcyclists feel secure and confident when it comes to travel and storage.
